BETTE

Bette have been producing premium architectural bathroom components from steel-titanium alloy enameled with purely natural materials since 1952. Their thermoforming process allows them to create flowing shapes with extraordinary craftsmanship and precision. Bette products are one-of-a-kind, with a range of colours and dimensions to create an inspiring space in every bathroom design.

SCRATCH RESISTANT

The surface of Bette Glaze is harder than marble, plastic or steel. When used as intended it is almost impossible to damage with anything normally found in the bathroom.

CHEMICAL RESISTANT

Bette Glaze is particularly robust. It is resistant to cosmetics and bath additives. Even nail polish will not mark it.

HYGENIC

Dirt and bacteria are unable to adhere to the glass-hard, non-porous surface of Bette Glaze. This makes it highly superior to softer materials or tiled areas.

IMPACT RESISTANT

The secret behind Bette Glaze is the strength of its ultra-thin layer. Like glass fibre, it remains flexible and resilient to the usual forces that occur in the bathroom.

HEAT CONDUCTIVE

Titanium-steel alloy and enamel is a perfect heat conductor. It quickly absorbs the warmth of the bath water, to ensure a highly beneficial bath.

DURABLE SURFACE

Bette Glaze is harder than marble, plastic, or steel but non-porous and resistant to abrasion and UV rays. A premium quality guaranteed for 30 years.

CRAFT

The combination of clear design language and filigree materiality gives the BetteCraft washbasin bowl an elegant matter of course. Due to the thin, tapering side walls, the generous shape appears organic and delicate.

DESIGNED AND MANUFACTURED IN GERMANY

MOSS GREEN
