BETTE

Bette have been producing premium architectural bathroom components from steel-titanium alloy enameled with purely natural materials since 1952. Their thermoforming process allows them to create flowing shapes with extraordinary craftsmanship and precision. Bette products are one-of-a-kind, with a range of colours and dimensions to create an inspiring space in every bathroom design.

DESIGNED AND MANUFACTURED IN GERMANY

GLAZED TITANIUM STEEL

Glazed Titanium Steel by Bette is harder than marble, plastic or steel alone. Bette's process permanently binds three ultra-thin layers of their special enameling formula to the titanium steel carcass in two firing steps at 850°C. The resulting products unite the freedom of form of steel with the unique properties of glass.

THIRTY YEAR WARRANTY

IMPACT RESISTANT

The secret behind Bette Glaze is the strength of its ultra-thin layer. Like glass fibre, it remains flexible and resilient to the usual forces that occur in the bathroom.

SURFACE

Bette Glaze is harder than marble, plastic or steel, but non-porous and resistant to abrasion and UV rays. A premium quality guaranteed for 30 years.

HEAT CONDUCTIVE

Titanium-steel alloy and enamel is a perfect heat conductor. It quickly absorbs the warmth of the bath water, to ensure a highly beneficial bath.

SCRATCH RESISTANT

The surface of Bette Glaze is harder than marble, plastic or steel. When used as intended it is almost impossible to damage with any thing normally found in a bathroom.

CHEMICAL RESISTANT

Bette Glaze is particularly robust. It is resistant to cosmetics and bath additives. Even nail polish will not mark it.

HYGENIC

Dirt and bacteria are unable to adhere to the glass-hard, non-porous surface of Bette Glaze. This makes it highly superior to softer materials or tiled areas.

LOFT ORNAMENT

The great versatility of glazed titanium steel is evident in the free-standing bathtub BetteLoft Ornament. Its expressive outer shape quotes the straight lines of the interior and continues this in a geometric pattern. Filigree side edges form the spacious inner body and ensure particularly high lying comfort.
