# **BETTE**

Bette have been producing premium architectural bathroom components from steel-titanium alloy enameled with purely natural materials since 1952. Their thermoforming process allows them to create flowing shapes with extraordinary craftsmanship and precision. Bette products are one-of-a-kind, with a range of colours and dimensions to create an inspiring space in every bathroom design.

## GLAZED TITANIUM STEEL

Glazed Titanium Steel by Bette is harder than marble, plastic or steel alone. Bette's process permanently binds three ultra-thin layers of their special enameling formula to the titanium steel carcass in two firing steps at 850°C. The resulting products unite the freedom of form of steel with the unique properties of glass.

**THIRTY YEAR WARRANTY**

BETTE

### **SCRATCH RESISTANT**

The surface of Bette Glaze is harder than marble, plastic or steel. When used as intended it is almost impossible to damage with anything normally found in the bathroom.

### **CHEMICAL RESISTANT**

Bette Glaze is particularly robust. It is resistant to cosmetics and bath additives. Even nail polish will not mark it.

### **HYGENIC**

Dirt and bacteria are unable to adhere to the glass-hard, non-porous surface of Bette Glaze. This makes it highly superior to softer materials or tiled areas.

### **IMPACT RESISTANT**

The secret behind Bette Glaze is the strength of its ultra-thin layer. Like glass fibre, it remains flexible and resilient to the usual forces that occur in the bathroom.

### **HEAT CONDUCTIVE**

Titanium-steel alloy and enamel is a perfect heat conductor. It quickly absorbs the warmth of the bath water, to ensure a highly beneficial bath.

### **DURABLE SURFACE**

Bette Glaze is harder than marble, plastic, or steel but non-porous and resistant to abrasion and UV rays. A premium quality guaranteed for 30 years.

# LUX

BetteLux is characterised by a flowing, natural design that is formed from an organic basic shape with extremely delicate outer edges. This elegant collection looks wonderful at home anywhere. The 8-mm folded edge is perfect for flush installation. The generous interior offers a unique level of reclining comfort.
