# **BETTE**

Bette have been producing premium architectural bathroom components from steel-titanium alloy enameled with purely natural materials since 1952. Their thermoforming process allows them to create flowing shapes with extraordinary craftsmanship and precision. Bette products are one-of-a-kind, with a range of colours and dimensions to create an inspiring space in every bathroom design.

**THIRTY YEAR WARRANTY**

### SCRATCH RESISTANT

The surface of Bette Glaze is harder than marble, plastic or steel. When used as intended it is almost impossible to damage with anything normally found in the bathroom.

### CHEMICAL RESISTANT

Bette Glaze is particularly robust. It is resistant to cosmetics and bath additives. Even nail polish will not mark it.

### HYGENIC

Dirt and bacteria are unable to adhere to the glass-hard, non-porous surface of Bette Glaze. This makes it highly superior to softer materials or tiled areas.

### **IMPACT RESISTANT**

The secret behind Bette Glaze is the strength of its ultra-thin layer. Like glass fibre, it remains flexible and resilient to the usual forces that occur in the bathroom.

### **HEAT CONDUCTIVE**

Titanium-steel alloy and enamel is a perfect heat conductor. It quickly absorbs the warmth of the bath water, to ensure a highly beneficial bath.

### **DURABLE SURFACE**

Bette Glaze is harder than marble, plastic, or steel but non-porous and resistant to abrasion and UV rays. A premium quality guaranteed for 30 years.

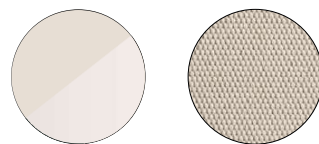

# LUX OVAL COUTURE

The German steel/enamel specialist Bette and the **Tesseraux + Partner** design studio have set themselves the target of redefining opulence in the bathroom. The company's design concept of a bath that combines robust steel/enamel with homely fabric creates unfamiliar associations and brings a new sensuousness to the bathroom.
