BATHROOM RENOVATION SPECIALISTS

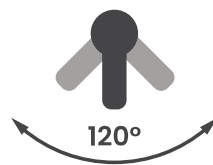

NUMBER ONE

Voted trade's No. 1 Brand
in Germany for the last
42 years

CARTRIDGE

Hansa tapware have an
open flow cartridge where
flow rates are controlled
by an elliptical o-ring and
honeycomb aerator which
maintains a 3bar flow rate if
pressure is increased higher.

COMFORT & SAFETY

Hansa Cartridges allow
120° of freedom. This
provides the user greater
anti scald protection with
young children who tend
not to be so careful when
moving from cold to hot

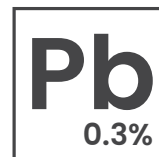

CHROMING

Hansa has perfected the balance between Nickel (12 Micron) and Chromium (0.3 Micron) to ensure its premium, non tarnishing finish

NICKEL FREE

For the Chromium to adhere to the brass nickel must be applied first. It is during this process that Hansa block access to all waterways of the body ensuring the faucet is Nickel free

TYPE OF BRASS

Hansa use MS63DR Brass. This is premium brass due to low lead content. 63% Copper / 36% Zinc – <0.8% Lead in Basin and <0.3% Lead in Kitchen Faucets

BASIC JET

The straightforward, geometrically clear design with its rounded edges and transitions puts the HANSABASICJET series of showers at the forefront of contemporary styles, and ensures that they are a perfect match for all modern fitting ranges. The 3-spray model is especially beneficial and versatile. The three spray types – 'relaxing', 'refreshing' and 'EcoFlow' – allow for both relaxation as well as invigoration under the shower.
