HANSA supplies the best quality in the market: A commitment that they have set themselves and is the standard on which customers base their evaluation. They meet this standard with both passion and purpose: providing products whose design, material, finish and technology continue to set new benchmarks.

DESIGNED AND ENGINEERED IN GERMANY

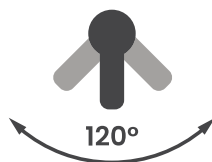

CARTRIDGE

Hansa tapware have an open flow cartridge where flow rates are controlled by an elliptical o-ring and honeycomb aerator which maintains a 3bar flow rate if pressure is increased higher.

COMFORT & SAFETY

Hansa Cartridges allow 120° of freedom. This provides the user greater anti scald protection with young children who tend not to be so careful when moving from cold to hot

CHROME

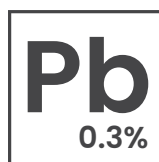

CHROMING

Hansa has perfected the balance between Nickel (12 Micron) and Chromium (0.3 Micron) to ensure its premium, non tarnishing finish

NICKEL FREE

For the Chromium to adhere to the brass nickel must be applied first. It is during this process that Hansa block access to all waterways of the body ensuring the faucet is Nickel free

TYPE OF BRASS

Hansa use MS63DR Brass. This is premium brass due to low lead content. 63% Copper / 36% Zinc – <0.8% Lead in Basin and <0.3% Lead in Kitchen Faucets

HIGH TECH FUNTIONAL CORE

Hansa are using plastics with DVGW Certifications, conforming to KTW Standards and tested in accordance with W270, maintaining drinking water quality as it flows through the faucet

TWIST LOOP

HANSATWIST with a lever loop shape is not only visually striking but is also particularly pleasant to touch. Offering you a distinctive advantage when it comes to ergonomics and ease of use. The slight forward tilt gives the body a dynamic feel. HANSATWIST with a lever loop shape provides long-lasting pleasure, regardless of what generation you belong to.

TWIST SOLID

HANSATWIST with a high-quality solid lever is convenient to operate, providing an elegant and discretely tasteful feel. It stands out, for the finely-balanced interplay between dynamically cubic and softly rounded surfaces. The pleasantly discreet design of HANSATWIST makes it a perfect partner to be combined with a variety of fittings to suit your style.
