# valdama

Valdama is a company located in Civita Castellana. It was created to respond to the needs of a big market offering only "Made in Italy" products under the highest standards of design, quality and innovation. Valdama is founded by Daniele Vitali and works with his sisters Valentina and Marta. Thus the Val-Da-Ma name.

Valdama's difference and strength is the ability to tailor the forms of the products to create special and unique pieces to satisfy customer's needs.

## PROSPERO RALUSO

The company relies on the art direction of Prospero Rasulo, a designer and artist with a strong experience in the bathroom sector and a personal approach to the project that has guided the Valdama strategy and the development of an innovative catalog right from the start.

Technique and functionality are the basis of the product development philosophy together with the emotional and sensorial aspect of the material and its forms. Brightness and particular pleasantness to the touch are the salient material effects that characterize Valdama products. The goal is to stand out on the international bathroom scene with a personal stylistic code capable of giving objects of use, consolidated from a typological point of view, a more courtly breath, bringing them closer to becoming small masterpieces of quality and daily harmony.

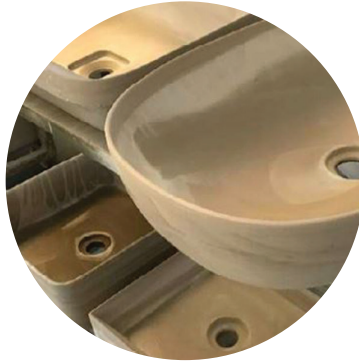

## 10 DAY PRODUCTION PROCESS

Valdama's traditional, non-mechanized production makes them unique in their sector. Each piece is followed throughout its creation phase, from the modeling process to the choosing of the item, under the supervision of qualified and certified individuals.

**DAY 1**  
**Casting**

**DAY 2-3**  
**Drying**

**DAY 4**  
**Product Finishing**

**DAY 5**  
**Testing & Engobbiatura**

**DAY 6**  
**Drying**

**DAY 7**

# ACQUERELLO

Acquerello is a two-colored washbasin that introduces a sophisticated and intriguing chromatic play in the usual type of washbasin to find a place even outside the bathroom.
